

Founders Mission Ended. You Guys Are Awesome! You Can Join The Investigators Mission & All Other Missions Until We Announce The Winners In The Upcoming Days.

Founders Mission

This Mission will go down in history as the beginning of the Global Guerillas, the spark that started a worldwide movement.

Global Guerillas (GG) plans to become a massive social sharing game that crosses between the physical and the online world. The goal of Global Guerillas is to spread the Enjin Gaming Multiverse to all gamers worldwide.

The following Global Guerilla challenges will be for the Enjin Community, Blockchain Gamers, and any gaming fan around the globe who believes in true digital asset ownership!

How to Become a Founder

Some choose their mission, while others are chosen by the mission.

The Founders Mission is designed to bring the Enjin Multiverse and all its games to your very own towns, cities, neighborhoods, and doorsteps. We are beginning, we are the GG founders, and it is up to us to spread our cause worldwide.

Your task is simple. Founders will be placing GG posters on pillars and stores, which will challenge people to download the Enjin Wallet and scan a QR Code containing 3 different tokens. Each token is a Global Guerillas Champion with a backstory and a mission for its owner to carry out on Twitter.

The participants of the Founders Mission will have to place at least 5 of the Global Guerillas posters around their area and follow the instructions to become one of the first Multiverse supporters who took action in Real Life.

Of course, those who carry out this mission will be rewarded with a Global Guerillas Founders token which will grant access to the additional Global Guerillas Missions. Official GG Founders will also receive the 3 champion tokens to hodl, gift or trade. Those who place the most posters will compete for incredible prizes.

Looking for more action? You can also join the Investigator Mission and make sure no one is trying to cheat the game!

You can only participate once! Additional entries won't be accepted.

Step 1: Download & Print the Global Guerillas Poster.

If you are located in USA or Canada, you are most probably using the US Letter paper dimensions. The rest of the world uses A4 paper. **The print must be colorful and full page dimensions.**

[DOWNLOAD A4 SIZE](#) →

[DOWNLOAD US LETTER SIZE](#) →

Please follow our instructions carefully.

- 1) You can only participate once. You can't place more posters after you submit your entry. Think wise if you are after an Enjin MFT.
- 2) The poster print must be colourful and full page dimensions (A4-US Letter)
- 3) Do not place the posters in places you are not allowed. We are not reliable for your actions. Please be responsible!
- 4) 1 Poster = 1 Picture. If your picture contains multiple posters, it won't get accepted.
- 5) Take a picture from distance. The surrounding environment must be clearly visible, otherwise the picture won't be accepted.
- 6) Pictures must be decent quality, we won't accept blurred images and pictures with filters etc.

Step 3: Upload the pictures to [eGamers.io Facebook Group](#).

We use our Facebook Group to conduct the Founders Mission so all pictures are publicly visible.

If you plan to place less than 42 posters, publish them all in one post. If you plan to place more than 42 posters, publish them in multiple posts. You will have to provide us with the posts link(s) in the form.

[JOIN THE EGAMERS FACEBOOK PAGE](#) 

Step 4: Submit the required details to the form.

Completing the form is mandatory. Otherwise we won't be able to track your progress.

SUBMIT THE FORM

Keep in mind the following:

You can only participate once in the Founders Mission. (and all missions except the investigator one)

If you post pictures that you don't own, or upload duplicate pictures, you will get banned from all missions. No exceptions will be made, nor we will accept "by mistake" excuses. Play fair, don't spoil the party.

We will do regular mints, feel free to join all Missions and you will receive the Founders Token in the next mint.

Winners will be announced in the [Multiverse Era Channel](#) two weeks after the competition end.

What is The Multiverse?

The Multiverse is a multi-dimensional realm of interconnected games powered by the Enjin development platform and the Ethereum Blockchain. We believe the Multiverse is the key to sovereignty and freedom for gamers throughout planet Earth.

Players of multiverse games can own their virtual items forever, trade them freely, and cash them in for cryptocurrency. But most importantly, they can jump from game to game using their inventory of multiverse items in every participating gaming realm.

Game developers can use this as a way to attract more players, raise the value of their in-game items, and galvanize engaged communities by allowing them to trade and collect valuable items in a fun, meaningful, and productive way.
